UNCLASSIFIED//FOR OFFICIAL USE ONLY

**EOC Daily Emergency Management Report**

**Date:** 01/10/2014  
**Time:** 1330 EST  
**Report No:** 007-14

**Alerts & Warnings**

**FEMA National Watch Center - Watch/Steady State**  
**National Terrorism Advisory System (NTAS) - No Current Alerts**  
**Continuity of Operations (COOP) COGCON Level is 4**  
**EPA HQ at Level 6 (Steady State)**

**EPA Headquarters Activities**

The ASPECT (Airborne Spectral Photometric Environmental Collection Technology) aircraft is located in Addison, TX and is operational and available for deployment.

The Portable High Throughput Integrated Laboratory Identification Systems (PHILIS) located in Edison, NJ and in Castle Rock, CO are operational and available for deployment.

The ERT Trace Atmospheric Gas Analyzer (TAGA) (Las Vegas, Edison, and RTP) and Mobile Command & HazMat Truck (Erlanger and Las Vegas) are available for deployment.

### **Significant National Weather**

**Severe Weather:** No organized severe thunderstorm activity is forecast for today.

**Significant Flood Outlook:** There is significant flooding likely or possible in southeastern Georgia, southern Vermont and northern Connecticut over the next five days.

**Critical Fire Weather:** There are no areas of critical fire weather forecast for today.

**Tornado Weather:** There is a 2-percent chance of tornado activity today in parts of eastern Texas, southern Oklahoma, southwestern Arkansas, southern Louisiana, Mississippi, Alabama and western Florida.

**Earthquake Activity:** A magnitude 5.1 earthquake occurred January 9, 2014 at 3:57 pm EST, 15 miles NNW of Corralillo, Cuba and 110 miles south of Key West, Florida, at a depth of 6.2 miles. No tsunami was generated. There are no reports of injuries or damages.

**Tropical Weather:** A Wind Advisory, High Surf Advisory and Small Craft Advisory remain in effect for American Samoa due to Tropical Cyclone Ian, which is located approximately 427 miles east of Suva, Fiji and is moving east-southeastward at nearly 7 miles per hour.

### **Report of Incident Notifications**

**Chemical Spill, Charleston WV - On January 9, 2014 no more than 5,000 gallons of the chemical 4-methylcyclohexane methanol leaked through a secondary containment area at a Freedom Industries chemical plant and into the Elk River in Charleston, WV (NRC#1070627.).** West Virginia water authorities have issued a "Do Not Use Water Notice" for 10 and a Presidential Emergency Declaration of emergency covers eight counties. The West Virginia Emergency Operations Center is fully activated and the state has activated their Health Operations Center. The FEMA Region III Regional Response Coordination Center (RRCC) is activated and the FEMA Region III Liaison Officer and Incident Management Assistance Team have been deployed. One EPA OSC located at the scene, another is en route. A mission assignment has been issued to staff the ESF-10 desk Regional Response Coordination Center (RRCC) in Philadelphia; a R3 representative is staffing that desk.

**Burlington Ditch Sheen, Commerce City, CO - NRC #1070633 January 9, 2014.** On the morning of January 9 a sheen was reported in the Burlington Ditch, Commerce City, CO prompting an EPA Region 8 OSC to be deployed to the site. The OSC met with CDPHE Water Quality and Hazardous Waste personnel, the Suncor VP of Refining and the Suncor Environmental Director. Working together, they investigated several miles of the Burlington Ditch. A very small amount of sheen was found near the Suncor property. A larger sheen was identified later in the evening approximately 1 mile downstream of the Suncor facility. As a precautionary measure the OSC had the ERRS contractor place both hard and absorbent boom in the ditch, completing installation around midnight. As of 11:00 AM MT the OSC is on site meeting with CDPHE, Suncor and ERRS to continue investigation into how best to address the sheen, and to continue to investigate the source, which has not been determined at this time.

There were 40 epaossc.org websites created and/or updated during this reporting period (1/09/14-1/10/14).

### **Exercises/Predeployments**

There are no exercises or predeployments today.

### **Regional Daily Ops Status Report**

Reported activities primarily represent NRC notifications with some State-level and other notifications to Regional Phone Duty Officers.

#### **Reported Activities (1/09/14-1/10/14)**

Region	Oil	Hazmat	Radiation	Other	Total
